Synopsis book

A deluxe bind-up edition of Naoki Urasawas award-winning epic of doomsday cults, giant robots and a group of friends trying to save the world from destruction! Humanity, having faced extinction at the end of the 20th century, would not have entered the new millennium if it weren't for them. In 1969, during their youth, they created a symbol. In 1997, as the coming disaster slowly starts to unfold, that symbol returns. This is the story of a group of boys who try to save the world. With killer bacteria attacks on San Francisco and London underway, the plot to destroy the world that Kenji imagined as a boy is playing out in real life through the actions of the Friend. What will happen next? Only one person knows. Only one person can save the world, and that person is Kenji. Firing up his guitar and making up his mind to stand up, Kenji heads to the concert hall where the Friend awaits
