Synopsis book

Wow your customers . . . with "less." Cut costs-it's a common corporate refrain. But if you constantly slash expenditures, what happens to innovation? How can you stay competitive and satisfy customers? Costovation solves the dilemma of how to spend less and innovate more. The book's revolutionary approach broadens the definition of innovation beyond products to the business model itself. With costovation, you let go of assumptions, take a fresh look at the market, and relentlessly focus on what customers really want. Consider Planet Fitness-it grew to 7.3 million members by concentrating on casual exercisers. Those folks don't care about frills. They want easy, low-cost access to good equipment. Although it's inexpensive to run, Planet Fitness ranks highest in gym satisfaction. Gourmet grocer, Picard, sells only frozen food. With less perishable inventory, they compress costs while delighting a discerning but busy clientele. Packed with examples and interactive exercises, the book
