Synopsis book

There is no end of talk and of wondering about 'art' and 'the arts.' This book examines a number of questions about the arts (broadly defined to include all of the arts). Some of these questions come from philosophy. Examples include:-

What makes something art? - Can anything be art? - Do we experience "real" emotions from the arts? - Why do we seek out and even cherish sorrow and fear from art when we go out of our way to avoid these very emotions in real life? - How do we decide what is good art? Do aesthetic judgments have any objective truth value? - Why do we devalue fakes even if we -- indeed, even the experts--- can't tell them apart from originals? - Does fiction enhance our empathy and understanding of others? Is art-making therapeutic? Others are "common sense" questions that laypersons wonder about. Examples include:- Does learning to play music raise a child's IQ? - Is modern art something my kid could do? - Is talent a matter of nature or nurture? This book examines
