Synopsis book

From #1 New York Times bestselling author Sophie Kinsella, an irresistible story of love and empowerment about a young woman with a complicated family, a handsome man who might be the one, and an IOU that changes everything.

Fixie Farr has always lived by her father's motto: Family first. But since her dad passed away, leaving his charming housewares store in the hands of his wife and children, Fixie spends all her time picking up the slack from her siblings instead of striking out on her own. The way Fixie sees it, if she doesn't take care of her father's legacy, who will? It's simply not in her nature to say no to people. So when a handsome stranger in a coffee shop asks her to watch his laptop for a moment, Fixie not only agrees, she ends up saving it from certain disaster. Turns out the computer's owner is an investment manager. To thank Fixie for her quick thinking, Sebastian scribbles an IOU on a coffee sleeve and attaches his business card.

But Fixie laughs it off and never
