Synopsis book

Brandon Sanderson is one of the most significant fantasists to enter the field in a good many years. His ambitious, multi-volume epics (Mistborn, The Stormlight Archive) and Hugo Award-winning The Emperor's Soul have earned both critical acclaim and a substantial popular following. In the Legion series, distinctly contemporary novellas filled with suspense, humor, and an endless flow of invention, Sanderson has revealed a startling new facet of his singular narrative talent. Stephen Leeds, AKA Legion, is the series' hero, a man whose unique mental condition allows him to generate a multitude of personae: hallucinatory entities with a wide variety of personal characteristics and a vast array of highly specialized skills. The third and final entry in the series, Lies of the Beholder, is perhaps the strangest, most unpredictable installment to date. The story begins with two seemingly unrelated events: the disappearance of Armando, one of Stephen's many aspects, and an unexpected
