9780982049716

Synopsis book

Visually focused, packed with cultural insight, and sized for portability, Guides for the Eyes celebrate the local traditions and visual vernacular that surround us. This new series arrives just as cultural and heritage tourism in the United States becomes the largest growing sector of the tourism market. While traditional travel guidebooks focus on where to eat, sleep, and visit (setting up the travel experience as a mere checklist of things to see and do), Guides for the Eyes introduce, explore, and beautifully illustrate the details that create the magical sense of place that travelers seek. As one of the most unique and colorful regions of North America, New Mexico is the first subject of the series. For thousands of years, the state's striking landscape has inspired the art, design, and traditions of its three dominant cultures: Native American, Hispanic, and Anglo/Western. This visual glossary of 100 New Mexico icons is a celebratory chronicle of these natural and cultural
