Synopsis book

During its 25-year service, the Renault FT tank was used in many countries around the world: France, Italy, Poland, the United States, Belgium, Brazil, Greece, Turkey, China, the Baltic countries, Soviet Russia, Japan, Romania, the Netherlands, Finland, Sweden, Switzerland, and Yugoslavia. It was in service during both world wars. The structural arrangement created by L. Renault with its transmission and drive wheels at the rear, combat compartment in the middle of the hull, and a movable turret, has become a classic construction solution for tanks and is still used nowadays. It was a base for new tanks manufactured in the United States, Italy, and the Soviet Union.
