

An abstract artwork featuring vibrant, swirling colors like red, orange, yellow, green, and blue, creating a sense of motion and depth. The colors blend into each other in fluid, organic patterns.

Synopsis book

Management, the pursuit of objectives through the organization and co-ordination of people, has been and is a core feature-and function-of modern society. Some 'classic' forms of corporate and bureaucratic management may be seen as the prevalent form of organization and organizing in the 20th century, but in the post-Fordist, global, knowledge-driven contemporary world we are seeing different patterns, principles, and styles of management as old models are questioned. The functions, ideologies, practices, and theories of management have changed over time, as recorded by many scholars, and may vary according to different models of organization, and between different cultures and societies. Whilst the administrative, corporate, or factory manager may be a figure on the wane, management as an ethos, organizing principle, culture, and field of academic teaching and research has increased dramatically in the last half century, and spread throughout the world. The purpose of this Handbook is
