Synopsis book

The first full account of the Flint, Michigan, water scandal, an American tragedy, with new details, from Anna Clark, the award-winning Michigan journalist who has covered the story from its beginningsWhen the people of Flint, Michigan, turned on their faucets in April 2014, the water pouring out was poisoned with lead and other toxins.

Through a series of disastrous decisions, the state government had switched the citys water to a source that corroded Flints aging lead pipes. Complaints about the foul-smelling water were dismissed: the residents of Flinta largely poor African American city of about 100,000 peoplewere not seen as credible, even in matters of their own lives. It took 18 months of activism and a band of dogged outsiders to force the state to admit that the water was poisonous. But this was only after 12 people died and Flint's children suffered irreparable harm. The long battle for accountability and a humane response to this manmade disaster have only just
